

In our continual effort to reduce our carbon footprint, we have found some reusable diaper pail liners that work well with our pails!

There is a blue nylon liner which is the sturdiest. However, it only comes in the one color. (More information at [www.prodiaper.net/products.html](http://www.prodiaper.net/products.html).) We almost always have these in stock.

The other liner comes in over 15 different colors (see <http://www.wahmies.com/pages/liners.php> for color options). Also, attached in the seam is a patch of hemp on which you can put a few drops of tea tree oil, or other fragrance or essential oil to keep the diaper pail odors at bay. These must be ordered.

The liners are for you to keep once you are done with diapers! They make great laundry bags, or storage for stuffed animals and blankets.

A minimum of 2 liners are needed (one for you to use and one sent in with your soiled diapers), but 3 are ideal (an extra for your delivery day when your dirties are out and your clean bag hasn't arrived yet). If you use more than 50 diapers per week, or usually have 2 bags of clean/dirty diapers per week, you may need 4 liners. The cost of the liners is:

1 for \$16.00   2 for \$28.00   3 for \$39.00   4 for \$54.00

Beginning January 1, 2009, there will be a bag charge of \$1.00/week/bag. If you would like to see the liners (use them for a week), please contact us; we will send out the sample bags on a first-call, first-serve basis.

Tender Tooshies Diaper Service will clean the liners and send your liner back to you with your clean diapers each week.
